The **Greater Hollington ROVER** is a Community Transport service operated by Hastings Area Community Transport (HACT), using start-up funding provided by East Sussex County Council.

HACT aims to develop the Greater Hollington *ROVER* to serve a variety of local service needs. This will be helped by securing new income sources and sponsorship to ensure the long term future of the service.

East Sussex County Council works in partnership with a range of organisations including Primary Care Trusts, local people, community groups and operators to ensure that community transport schemes provide local solutions to local transport needs. The County Council provides advice and support wherever possible; however, it is important the focus and control of these services remains with the local community.
